

## **Equal Opportunities**

The school has an Equal Opportunities and a Racial and Cultural Equality Policy that influences all school activities. The staff strive to promote harmony and respect between individuals from all backgrounds and cultures.

If the need arises, the school, in liaison with the Local Education Authority, will respond to pupils with special educational or physical needs. Indeed, the school has been designated as the area school for children with moderate physical disabilities within the Ysgol y Gader catchment area and has consequently been modified and a purposeful therapy room provided.

The school also has a small designated Unit for autistic pupils and we are working towards developing an expertise in this field.
